PROPOSAL

Olwethu Mlanjana

WEB DEVELOPMENT(INTRODUCTION)

ICE TASK 7

1. **Organisation Overview:**

- The Glow Up Hub & Co.
- Glow Up Hub & Co was established on 15 March 2024 as a modern beauty parlour focused on helping clients look and feel their best. The business was founded with the vision of creating a welcoming and stylish environment where customers could enjoy quality beauty services. Since its establishment, Glow Up Hub & Co has aimed to provide professional, personalised and affordable beauty treatments to its clients. The business focuses on

creating a positive experience by understanding each client's individual beauty needs and preferences. Its services are designed to promote confidence, self-care and natural beauty. As Glow Up Hub & Co continues to grow, the business aims to expand its customer base and strengthen its brand within the beauty industry. The development of a professional website will support this growth by improving the business's online presence and making information about its services more accessible to customers.

✞ Our mission is to deliver exceptional beauty experiences that inspire confidence, celebrate individuality, and help every client look and feel their best.

✞ Our vision is to be the leading beauty destination, empowering confidence through excellence, innovation, and self-care.

✞ Target audience:

- Students and young professionals (18-30)
- Brides and Bridal parties
- Professionals preparing for events or corporate settings
- Anyone seeking self-care and beauty treatments

2. **Website Goals and Objectives:**

✞ Website Goals

- Showcase The Glow Up Hub & Co. beauty services and pricing.
- Allow clients t book appointments online quickly and easy.
- Display promotions, special offers, and new services.
- Build trust by featuring client testimonials and a gallery of completed work.
- Provide contact information, business hours, and location details.
- Increase brand awareness and attract new clients through a professional online presence.

✞ Key Performance Indicators (KPIs)

- **Website traffic**: Track the number of visitors to the website each month.
- **Online Bookings**: Measure the number of appointments booked through the website.
- **Conversion Rate**: Monitor the percentage of website visitors who book a service or make an enquiry.
- **Customer engagement**: Track time spent on the website, page views, and interactions with content.
- **Customer Reviews**: Measure the number of positive reviews and client testimonials received.
- **Social Media Growth**: Monitor the increase in followers and engagement driven by the website.

3. **Current Website Analysis (if applicable):**

 Strengths:

Clean, modern, and visually appealing design.

Easy navigation that helps users find information quickly.

Online booking system for added convenience.

Mobile-friendly layout for users on smartphones and tablets.

Showcases services, pricing, promotions, and customer testimonials to build trust.

 Weaknesses:

Requires regular updates to keep content accurate and relevant.

May experience slow loading times if images are not optimized.

Depends on a stable internet connection for users to access all features.

Online booking system may require ongoing maintenance to function smoothly.

High competition from other beauty websites may make it harder to attract visitors without effective marketing.

- **Areas of improvement**:
  Regular content updates. Frequently update services, prices, promotions, and business information to keep the website accurate and engaging.
  Improve website speed by optimizing images and reduce unnecessary content to ensure faster loading times.
  Enhance technical maintenance by regularly testing maintaining the online booking system to prevent errors and improve user experience.
  Strengthen online marketing by using social media, search engine optimization, and online advertising to attract more visitors and remain competitive.
  Improve accessibility by ensuring that the website is easy to use on all devices and accessible to a wider range of users.
  Collect customer feedback by encouraging clients to provide reviews and suggestions to continuously improve the website and services.

4. **Proposed Website Features and Functionality:**

Home Page

- Welcoming introduction to Glow Up Hub & Co.
- Highlights of featured services, promotions, and special offers.
- Clear navigation to other pages.
- **Functionality**: Attract visitors and encourage them to explore the website or book an appointment.

About Us

- Information about the business, mission, vision, and values.
- Introduction to the team and their expertise.
- **Functionality**: Inform clients about available services and help them choose the right treatment.

Services Page

- List of beauty services with descriptions and pricing.
- **Functionality**: Inform clients about available services and help them choose the right treatment.

Products Page

- Display beauty products available for purchase.
- Product descriptions, prices, and benefits.
- **Functionality**: Enable quick and convenient appointment scheduling.

Contact Page

- Business address, contact number, email address, business hours, and a map.
- Contact form for enquiries.
- Links to social media pages.
- **Functionality:** Makes it easy for clients to contact or locate the business.

5. **Design and User Experience:**

- Colour Scheme: Blush Pink – Brand colour & highlights

  Cream – Background colour

  Black – Headings and main text

- ***Typography***: Headings – Playfair Display

  Body text – Poppins

  Hierarchy

  H1- Main heading: Large,

  bold Playfair Display **H2 –**

  Section headings: Medium

  Playfair Display **H3-**

  Subheadings: Poppins, semi

  bold ***Body text:***

  Poppins, regular, with comfortable line spacing.

  Buttons:

Poppins, semi-bold, with short labels such as **Book Now, View Services** and **Contact Us**

- Layout and Design:

Homepage

Navigation bar

- Glow Up Hub & Co. logo
- Home
- About Us
- Services
- Gallery
- Contact

Hero section

- Large beauty image
- Main slogan*: "Your Glow Starts Here"*
- Short description
- Book an appointment button

About Us

- Short introduction to Glow Up Hub & Co.
- Image of the beauty parlour

Services

- Hair
- Nails
- Makeup

Why Choose Us

- Professional service
- Quality products
- Relaxing environment
- Experienced beauty professionals

Gallery

- Images showing previous beauty work

Call-to-action

- "Ready for your glow-up?"
- Book your appointment

Footer

Contact information
Social media

Operating hours
Quick navigation links

- User experience considerations

Navigation

The navigation will be simple and consistent across every page. Users should be able to reach important sections within one or two clicks.

The Book Now button should remain visually prominent because booking an appointment is one of the main purposes of the website.

Layout

Information will be organised into clearly separated sections rather than placing too much information on one page. This makes the website easier to scan.

Colour

The cream and nude backgrounds will prevent the website from feeling overwhelming, while blush pink can be used for important interactive elements. Text will remain dark enough against the light backgrounds to maintain good readability.

Mobile responsiveness

The website will work well on phones, tablets and desktop computers. On smaller screens, the navigation can change to a hamburger menu, and service cards can stack vertically.

Accessibility

The design will include:

Clear, readable fonts
Sufficient contrast between text and backgrounds
Descriptive labels for buttons
Alternative text for images
Easy-to-use forms
Consistent navigation

6. **Technical Requirements:**

The hosting package will support HTML, CSS & JavaScript

Domain name: glowupandco.co.za

7. **Timeline and Milestones:**

Glow Up Hub & Co. Project Timeline

Date	***Activity***	***Key Milestone***
10-11 August 2026	Research Glow Up Hub & Co. business, target audience and website requirements	Business user requirements identified
12 August 2026	Identify hosting, domain name, programming languages and frameworks	Technical requirements completed
13 August 2026	Develop website structure, colour palette, typography and low fidelity wireframes	Design plan finalised
14 August 2026	Part 1 submission	Part 1 submitted
15-21 August 2026	Begin part 2 development by creating HTML structure and organising website content	Basic website structure completed
22-28 August 2026	Develop the visual design using CSS	Colours, fonts, spacing and layouts applied
29 August – 4 September 2026	Design individual sections such as the homepage, services, About Us, and Contact sections	Main visual design completed
5-8 September 2026	Implement responsive design using CSS media queries and flexible layouts	Website adapted for mobile, tablet and desktop
9-11 September 2026	Refine visual elements such as buttons, navigation, images, cards and hover effects	Website styling polished
12-14 September 2026	Test the website on different sizes and browsers	Responsive design tested and issues identified
15-16 September 2026	Make final CSS adjustments and correct layout/design issues	Final visual improvements completed
17 September 2026	Review the website against part 2 requirements and prepare documentation	Part 2 final version completed

18 September 2026	Part 2 submission	Part 2 submitted

8. **Budget:**

The estimated first-year budget for developing, hosting and maintaining Glow Up Hub & Co website is approximately R7 000. This includes website development, domain registration, web hosting, SSL security, maintenance and backups. The budget is appropriate for a small business like this beauty parlour because the website will primarily provide information about the business, services, contact details and visual content rather than requiring complex ecommerce functionality.
